

NEW BARON "L"

Longer than ever and available with twice as many (6) individual stall length positions to precisely hold your horses just where you need them to be for maximum comfort and safe traveling.

Baron® "L" HB / TC / SL

Baron "L" HB

"Not shown. One single wide groom door either side"

Clear forward of the chest bar for a full 65 inches to the front window. There's lots and lots of open space forward of the chest bar. When horses are loaded, you can get up in front of them for any purpose during a journey no matter the length of your trip.

Baron "L" TC

The Patented INSTATAACK lid lifts vertically over the tack area to offer full standing room height.

Baron "L" SL

With INSTATAACK, the tack wall slides on internal wall runners back to the chest bar with horses off the trailer to make a 6 foot dressing room once the back lid has been raised vertically.

REAL TRAILERS

If you have a full sized truck; get every precious extra mile per gallon when towing a BRENDERUP. If you don't want a truck, there's still a BRENDERUP to suit every vehicle that will accept a class II hitch (for the BARON "L" a class III hitch).

Baron® "L" HB / TC / SL

Detailed European engineering and careful U.S. manufacturing. Proven design and quality materials together offer every horseman the easiest, safest stress free trailering available any where.

You can relax knowing that more than 25 years of consistent market involvement ensures ready availability through our ever expanding network of dealers all eager to help you truly enjoy your trailering.

With dealers in 20 States and 3 Canadian Provinces, a BRENDERUP Horse Trailer may be closer than you think. Or ask your favorite trailer dealer to get you a BRENDERUP if stocking dealers are too remote from you.

Watch the free DVD, take a test drive, ask questions of anyone who has used a BRENDERUP. Check us out online at www.brenderuprealtrailers.com

The highest quality in a modern design.

Transport safety down to the smallest detail.

Baron "L" (L for long) the floor is 12 inches longer and it is all in the stall. Up to 8 inches longer, butt/chest bar measurement.
